

## DECIDE TO BUILD PAYSON RAILROAD

Simon Bamberger and Associates Will Organize the Company Immediately.

### FIND ROUTE PRACTICAL

### INSPECTION RESULTS IN DECISION TO CONSTRUCT LINE.

(Special to The Herald-Republican.)

Provo, July 7.—Simon Bamberger and associates interested in the building of the electric line from Salt Lake to Payson, met here today after a trip over the route of the proposed road, with H. A. Strauss, electrical construction expert, who was brought here from Chicago. They found that the route was feasible.

After hearing the report it was decided to organize what will be known as the Utah & Salt Lake Electric Railway company. The capitalization will be \$1,500,000, with shares of \$100 each. The promoters will meet here July 14 to incorporate and elect officers.

The proposed line will be about seventy miles long, and will pass through Sandy, Draper, Murray, Lehi, American Fork, Pleasant Grove, Provo, Springville and Spanish Fork.

Those who attended the meeting were Simon Bamberger, Stephen L. Chipman, James H. Clark, Abel John Evans, John DeGray Dixon, Charles Hanks, D. R. Beebe, John H. Wootton, J. S. McBeth, W. S. Chipman, W. L. Hayes, Albert E. Cooper, George W. Craig, W. T. Reynolds and George C. Whitmore.

The men who attended the meeting seemed to be enthusiastic, and declared that immediately after the company is incorporated the work of securing franchises and right of way will commence.

### FIND CITY WATER PURE

Municipal Officers Analyze Flow From Both Creeks and Declare It Exceptionally Good.

Analysis of city water taken from City creek and from Big Cottonwood creek by City Chemist Herman Harms and reported to Dr. S. G. Paul, health commissioner yesterday, show that both sources of the city's supply are furnishing water of exceptional purity. The city water, as analyzed in physics, shows a bluish tint, with no odor either at natural temperature or heated, and no sediment and its clearness is designated as "very bright and sparkling."

The Big Cottonwood analysis on these points is the same excepting that the clearness is not so marked as that of City creek. The chemical analysis of both samples show a perfect score. The City creek water shows a total solids of 14.210 grains and the Big Cottonwood water shows total solids of 15.835 grains. In City creek there is an amount of chlorine corresponding to 1.595 grains while Big Cottonwood has 2.310 grains of salt to the gallon.

The bacteriological examination conducted after the method employed by the Imperial German government, shows 36 and 54 colonies of bacteria developed after 48 hours at 77 degrees temperature.

### MRS. JOHANNAH ELGGREN DIES AFTER LONG ILLNESS

Mrs. Johanna Christina Elggren, another pioneer of Salt Lake, died yesterday morning at the family residence, 414 East Seventh South street, after long suffering from general debility. She was born in Upsala, Sweden, on December 14, 1825, daughter of Samuel and Christina Johanson. She left her native land on April 25, 1845, arriving in Utah on November 15 of the same year. She was married to Adolph E. Elggren a year after reaching Salt Lake, and has lived here all of the time since then, except for short periods in Idaho, City, Ida, and Hooper, Utah. She was the mother of nine children, of whom the following survive here:

Mrs. Mary C. Rundquist of Roy, Utah; A. Fred Elggren, Albert J. Elggren, Lorenzo E. Elggren and Mrs. Esther E. Morrison of this city. She had 19 grandchildren.

The funeral will be held at 1 p. m. Saturday at the Second ward meeting house.

### MORE ELKS ARE COMING.

Entertainment Planned for California Delegation on July 18.

The Salt Lake lodge of Elks is formulating a week's program for the entertainment of the southern California Elks, who are coming to Salt Lake, July 18. It will include a number of side trips to towns and resorts in the state. It is expected that the party will number about 500. The Salt Lake Elks have made a rate of \$30 for the round trip good for thirty days. Fred L. Wood yesterday received a telegram from H. C. Doonan of Santa Monica, who is in charge of the excursion, inquiring about hotel accommodations. Mr. Wood wired that the California Elks and their friends would be taken care of, no matter how many were in the party.

### July First Re-Investments

The first of July is the time when many people receive the semi-annual interest on their investments and in fact when a large number obtain the principal itself on securities. The money thus received should not remain idle, but should be immediately deposited at interest. Our certificates of deposit bear 6 per cent and afford unquestioned security.

## TRAMPING RIDERS TO BE RIVALS AT MOTORCROME

De Rosier vs. Whittier One of Many Attractions Management Has Arranged at Track.

De Rosier or Whittier, which is the better man on a motorcycle?

This question is one that has been asked since the new Motorcrome was opened. Both have supporters, and both have proved they are experts. It is to give the many newly-made motorcycle fans a chance to see this prize pair of daredevils in action that a challenge match race has been arranged.

Whittier vs. De Rosier in a three-mile match race, best two in three times, is the feature card at the Motorcrome tomorrow night. For three days the management has worked to bring this pair together, and last night signed their names to a contract to appear in the race stated above. It is a race such as they were having on Saturday night a week ago when De Rosier's machine went wrong, and by the time he was back on the track Whittier had gone to the bad. For three miles it was a neck and neck race, then accidents made it impossible to finish.

Steve Senhouse, the popular bicycle rider, makes his initial appearance in the motorcycle game tomorrow night. Senhouse was away last Saturday and, after watching the motor riders ride mile after mile, timed in seconds, not minutes, declared he would like some of that game.

On Tuesday he purchased a seven-horse power machine. He expects to be able to hold his own with the best of them before the season is many weeks older. Senhouse is the second of the local bicycle favorites to take to the sport. W. E. Samuelson getting into the game on the opening night. A number of other bicycle riders in the city are after fast motors, and it is expected more familiar faces will be seen before many days.

The management of the new Motorcrome is more than pleased with the attendance since the track opened, as it exceeded all expectations. It looks as if the public want speed, miles traveled in seconds, not minutes, and plans are being made to give Salt Lake the fastest speed in the world riders. The wires have been hot all week telegraphing for more fast machines.

## LAND BOARD HEARS OASIS GREIVANCES

Complaint of Farmers Against Company Being Proved by State Authorities.

Rehearsal of grievances on the part of the farmers and ranchmen under the Oasis Land & Irrigation company's project and reiteration of promises and estimates on the part of the company, took up all of the morning and afternoon sessions of the state board of land commissioners and at 6 o'clock last night the matter was taken under advisement. The board will meet this morning to consider the Sevier River Land & Water company's bill for work on the project and this matter will require a day or more to settle, and moreover, it may go to the courts. The company claims that the state owes money because the company kept out of the ditch and the state contends that the ditch could not be used any way it was intended.

In the discussion of the Oasis troubles, the property owners yesterday morning in a general session of the state land board complained that the company to give immediate relief by furnishing water.

The company contended that the washing out of the division dam was an act of providence and it had been all in its power to repair the damage. W. H. King, attorney for the company, said that the company was negotiating for a bond issue to provide funds for putting in a new dam and the money would probably be forthcoming in a few days. The farmers want to stick to their guns, but they contend that they must have water and were not concerned in the matter of the project. The company further than their demand that the dam be repaired without delay.

Regal shoes at Shannon's.

### HOMEOPATHS DUE TODAY

Physicians Going to Coast in Two of Finest Special Trains That Ever Crossed Continent.

Two of the finest special trains which ever crossed the continent will arrive in Salt Lake at 9 o'clock this morning, occupied by about 220 delegates who are bound for Los Angeles to attend the annual convention of the American Institute of Homeopathy.

C. A. Wherry, who will assist in the entertainment of the delegates, received a telegram late last night that the special trains were running on schedule on the Denver & Rio Grande from Denver.

The first train will arrive at 9 o'clock, and the second section about fifteen minutes later. The visitors will be met at the depot by Salt Lake homeopaths, and a committee from the Commercial club. The forenoon will be spent in autoing and sight-seeing.

At noon they will attend the organ recital at the tabernacle, with special privileges. The early part of the afternoon will be spent at Saltair. The party will leave at 6 o'clock.

### CONTEMPT CASE TODAY.

Herald-Republican Employees Cited to Appear Before Judge Lewis.

The Herald-Republican, represented by its attorneys and three members of the editorial staff, will appear before Judge Thomas D. Lewis at 10 o'clock this morning to answer to the citation issued against the company and the individuals for contempt of court. One citation against The Herald-Republican Publishing company was made because of the publication of the confession of Harry Thorne in connection with the trial of Thomas Riley for the murder of George W. Fassell, and the other citation against the company and against the three employees of the paper was for publication of this confession, which was introduced in evidence in the trial of Harry Thorne.

## SAN LUIS OBISPO ELKS ENTERAINED

Special Trainload of Californians Enjoy Brief Stay in Salt Lake.

Another special train from California bearing more of that vivacious and happy company of Elks who come from the coast, arrived in Salt Lake yesterday afternoon on route to Detroit. The special train, made up of five standard sleepers, two diners, buffet and baggage car, arrived at 3:20 p. m. The train, which was made up at San Luis Obispo, which is about midway between San Francisco and Los Angeles, picked up passengers all along the coast line as far as Oakland. There were about 100 men and 25 of their wives, mothers or sisters aboard.

As the train originated at San Luis Obispo, W. C. Carpenter and J. F. McHenry, exalted ruler and past exalted ruler, respectively, of the Elks lodge No. 222, were regarded as the heads of the party. While en route to Detroit, the San Luis Obispo contingent is not overlooking the opportunity of boosting their city, which was founded in 1772 by Father Juniperra Serra, a Franciscan monk.

The California Elks stopped in Salt Lake two hours and forty minutes, and then leaving the city they had the best time they had spent since leaving home. They were met by local Elks and taken to the Elks' club, where luncheon was served. Some of the party left for the east at 6 o'clock. The Elks' club was under the direction of W. G. Romney, exalted ruler; A. W. Raybould, secretary of the Salt Lake lodge, and the following women: Mrs. W. G. Romney, Miss Venus Romney, Mrs. S. C. Ewing, Mrs. Jones, Mrs. Thomas, Miss Enid Newman.

The visiting Elks were escorted to the tabernacle, where a special organ recital was given for them from 4 to 5 o'clock. After an automobile ride, they were taken to the Oregon Short Line depot in time for their train.

## FOREIGN YARN INTRUPE Mormons Refute Tale From Norway That Missionaries Engage in White Slave Traffic.

Strenuous denunciation of the charges that missionaries of the Mormon church are engaged in the white slave traffic in Norway, Sweden and Denmark was made last night at the fourteenth ward meeting house, when the hall was packed to overflowing by Scandinavians, who raised their voices in protest. Miss Alma Anderson read several clippings from Norwegian newspapers claiming that missionaries were engaged in the traffic, but speakers showed these charges to be groundless.

It is probable a protest will be drawn up, signed by thousands of Scandinavians in Utah, and sent to the offending journals denouncing the stories as slanderous and untrue.

One of the features last night was the reading of an address protesting against these charges, signed by Norwegian young women. Miss Holmstead read this. Addresses were made by several members of the church, both from the platform and the body of the house, all refuting the charges, among them President A. H. Lund and C. M. Nielsen.

Mr. Nielsen read excerpts from government reports showing that Utah has the lowest percentage of illegitimate children in the world, and that young women converts are of ignorant types.

### TRY DEVIL'S GATE PLANT

Big Power Generator Will Be Started Today for a Test Run.

In the presence of General Manager Joseph S. Wells and other officers of the Utah Light & Railway company, the Devil's Gate 4,000-horsepower plant will be "cut in" at 10 o'clock this morning and a test run will be made. For several days the machinery has been running, drying out the generators. Everything is said to be in perfect condition, although it may be several days before the company will attempt to use the power for operation of its system.

As soon as the new water power plant is found to be working order, the steam plant on the river will be used only in cases of emergency.

### FAIL TO QUALIFY.

Registry Agents Must Appear at County Clerk's Office Today.

With today the last day allowed, there are a number of registration agents for the coming election who have failed to qualify, and also a number who have failed to call at the office of the county clerk for their supplies. The districts which had not qualified up to last night are as follows: 16, 28, 58, 63, 67, 79, 80, 82, 85, 91 and 92. The districts for which supplies have not been called are: 2, 16, 34, 35, 24, 65, 67, 68, 67, 69, 66, 68, 65, 63, 71, 72, 79, 82, 81, 80, 85, 87, 90, 91, 92, 97, 98.

## Our New Soda Fountain

Continues to grow in popularity. Try an ice-cold glass of sparkling soda water or an appetizing dish of cream served in the daintiest manner possible at the most pleasant fountain in the city.

## THOUSAND WHO HOLD WALES DEAR IN MEMORY OR LEGEND GO TO SALT AIR.

Cambrian day was fittingly celebrated at Saltair yesterday by about 3,500 residents of Salt Lake who still hold a warm spot in their hearts for Wales, the land of their own or their ancestors' nativity. Early in the afternoon the great crowd started for the resort, and throughout the afternoon and evening Saltair was the goal for all the Welsh residents of Salt Lake.

The resort echoed throughout the day with sounds of the native tongue. Many airs dear to the hearts of the Welsh people were rendered during the afternoon by Montgomery's military band. Besides this there was an appropriate program, consisting of Welsh songs and speeches in the native tongue by prominent members of the Cambrian association.

Many of the pleasure seekers took advantage of the afternoon for a dip in the lake, following which several thousand staidy luncheons brought from home were consumed. All the attractions of the resort proved popular during the evening, including the dancing, a feature of which was the Welsh music rendered for the dancers.

The program of the day, every number of which was encored, was held in the hippodrome at 6 o'clock, and was as follows: Address of welcome by Postmaster Arthur L. Thomas; "Godfrey's Reminiscences" of Welsh Airs; Montgomery's military band; singing, Welsh national hymn, "The Land of My Fathers," by the audience, led by John James; solo, "Forth to the Brave," by Horace S. Ensign, responding to the encore "Wales, Dear Old Homeland," solo, "Land of the Harp," Miss Esther Davis; encore, "The Dove," solo, "The Man of Harlech," Professor Charles Kent; encore, "All Through the Night," solo, "The Bells of Aberdovey," Mrs. Lizzie Thomas; Edward; encore, "Love in Springtime," Welsh speech, Rev. J. Morlais Richards, and two baritone solos in Welsh by Thomas Evans.

## BACK FROM RECO, BUT NOT IN FORM

Only Four Councilmen Present—Negroes Ask Law Against Discrimination.

Councilmen J. W. McKinney, L. E. Hall, L. J. Wood and Hodgson were the only city solons who showed up for the city council last night, but these members were from the municipal laws committee, and they went through an overloaded order of business rapidly.

The committee decided to visit at noon Saturday the place where the Salt Lake Hardware company wants a spur track. The petition, signed by several negroes, asking that an ordinance provide that any one who refused to admit or serve a negro at his place of business be fined \$200, and half of the fine to the aggrieved individual, was referred to the committee.

A petition from A. B. Hirth, calling attention to the fact that there is nothing in the city building regulations covering the erection of steel or concrete buildings, and asking that the matter of revising the ordinance be turned over to the city building department, was also referred to the committee.

The recommendation was made over the objection of the city building department, which recommended that the city join the League of American Municipalities and provide \$40 for the membership fee.

An ordinance prohibiting pool rooms and gambling, drafted by the city attorneys in accordance with a resolution passed by the council, was referred to the council with a recommendation that it be considered by a committee.

C. L. Colstrom was present to ask the city to pay \$200 damages on account of injury he received at the wheels of a city horse which was turned loose at the time the barns burned two weeks ago, and while Colstrom was trying to catch it, two rags gave way under the impact of the horse's hoofs.

### CITIZENS MAKE PROTEST.

Object to Sewer Tax When They Get No Benefit.

Citizens living in Third North street between Second and Third West streets have presented a vigorous protest to pay the sewer tax against having to pay assessments for a sewer which will not be put in until the city is unable to use the citizens call the attention to the fact that the city has no sewer, and therefore they are unable to pay the sewer tax. The city has a sewer, but it is not in use, and the city is unable to pay the sewer tax. The city is unable to pay the sewer tax, and the city is unable to pay the sewer tax.

### CARL OFFERS IMPROVES.

No Complaints Issued Yet Against Steamhardt and Scott.

No complaints have as yet been issued against Robert Steamhardt and Arthur Scott, who were arrested for engaging in a pistol duel at 261 South Main street, in which Scott was shot. At the German-American hospital last night, where Scott was taken yesterday from St. Mark's hospital, it was reported that Scott was in no pain. The probabilities are that he will recover.

ATTENTION, WOODMEN. All Woodmen of the World are earnestly requested to go out and help build a home for the poor. Emma on Sunday next, July 10, 1910. ## INSTITUTE WILL MOVE TO COLLEGE

Famous School Will Be Accommodated in Westminster Main Building.

### PROF. SWEAZEY REMAINS

STRUCTURE AT PRESENT IN USE MAY BE SOLD.

Arrangements are now being made for the moving of the Salt Lake Collegiate Institute from its present buildings in Second East street to the new buildings of Westminster college on the southeast bench. A meeting of the directors of the college was held yesterday, but a quorum was not present, and the officers will be called together in the near future to complete the details. The institute will be moved in time for the fall classes, and will have space with the regular college classes in the main building of Westminster college.

In moving to the new building on the southeast bench, the Collegiate Institute leaves a location which has become known for years as the home of the Presbyterian school. Soon after the building of the First Presbyterian church at the corner of Second East and Second South streets—since converted into stores and a rooming house—the Salt Lake Collegiate Institute moved into the big ment and there began holding classes. In 1872 the institute erected a building of its own at 161 South Second East street, where classes were held for many years, and are still being held during some periods. Then, in 1894, a new brick building of three stories was erected just north of the school buildings. This has been the home of the institute since that time.

The institute has about eighty students during the school season. Professor George B. Sweaze, who has been principal of the institute for several years, will continue as the head of the work when the school is moved to the new Westminster college building.

What will be done with the present school building has not yet been decided, but this matter will be determined by the directors at a meeting to be held in the near future. It will probably be sold and the money used to build up the school in its new location.

## DR. KINGSBURY TELLS NEEDS OF UNIVERSITY

Thousand Guests of Summer School Attend Luncheon and Inspect Educational Equipment.

Students and faculty of the university summer school observed University day Thursday, when they were guests of Dr. J. T. Kingsbury and the board of regents at an informal luncheon, which was under the direction of Miss Lucy Van Cott and assistants. In the general assembly which preceded the leading features of the day, Dr. Kingsbury gave a brief history of the university and outlined its immediate needs, including increased library facilities, a women's gymnasium, dormitories for men and women, and an art museum.

Music for the assembly was under the direction of Professor Squire Coop. Vocal solos by Charles Kent were enthusiastically received. After the meeting the thousand guests were taken through the laboratories, shops, museums, gymnasiums, the mill, smelter and other departments of the university. Many of the students from states outside of Utah expressed great surprise at the extent of the equipment. The seismograph was a distinct center of interest.

Entertainments announced for the next two weeks are: Lectures by Dr. Richard G. Boone and others; reading of Ibsen's "The Doll's House" by Miss Maud May Babcock, and a musical. Through the courtesy of J. J. McClellan and the authorities of the Mormon church, students of the summer school will enjoy an organ recital at the tabernacle on a day yet to be designated.

Many members of the school will go to Lapwai for an outing this afternoon and evening.

### WILL INSPECT FOOD

SOLD IN MINING CAMPS

Following reports that the sanitary conditions of the restaurants, bakeries and other food establishments, were not up to the standard required by law, State Dairy and Food Commissioner Willard Hansen, left yesterday on an extended inspection trip to the various mining camps of the state. Mr. Hansen will inspect everything within his jurisdiction, including slaughter houses, soda fountains, dairies, bakeries, etc.

## CONTINUES CASE OF BELLE LONDON

Assistant City Attorney Promises to Produce a New Witness.

In the case of the city against Mrs. Dora B. Topham, alias Belle London, charged with selling liquor without a license, very little progress was made yesterday in police court. At the morning session four witnesses were examined. They were Hul Hak, a Korean, who serves beer in the stockade; T. F. Griffiths and R. A. Radke, two police officers, and James K. Boyd, employed as a special policeman within the stockade.

In the cross-examination of Griffiths, it was shown that he did extra duty at the stockade for white and colored 100 per month besides his regular wages. It was also brought out that James K. Boyd, now a special policeman, sold some of the property to the Citizens' Investment company, which is now included in the stockade. In the examination of Boyd it was brought out that Boyd had had all of his negotiations with Belle London.

At the afternoon session of court testimony of Police S. M. Barlow was the only witness. He admitted that Belle London had been in his office a number of times, but he knew only from hearsay that she was running the stockade. At the close of the chief's testimony, the testimony given during the morning session was gone over. Cuthbert Olson, attorney for Belle London, then moved that all this evidence be stricken from the records and that the jury be instructed to bring in a verdict of not guilty on the ground that no one who had been directly connected with the crime as alleged in the complaint had been found, and that the sale of liquor to Viola Doe had not been proved. After a long argument against the motion by P. J. Daly, assistant city attorney, the court held that since no person had been in court who was directly connected with the alleged offense, he could see no reason why the motion of Attorney Olson should not be granted. Attorney Daly then stated to the court that the prosecution had discovered an important witness who would be the link in the chain of evidence against the defendant, and this witness would be produced in the morning. The assistant city attorney also stated that if the city lost this case the other two cases pending would be dismissed, and the city would begin the prosecution of the other charges of keeping houses of ill repute against the defendant. Court was then adjourned until today at 10 o'clock, to give time to produce the new witness.

INSIST THAT SUICIDE WAS NOT INTOXICATED

Friends Who Met Arthur Thompson Just Before He Killed Self Say He Was Sober.

That Arthur Thompson was not made rash by drink, as he inscribed a farewell message to his mother and then committed suicide in an East Second South street rooming house yesterday afternoon, is declared positively by Fred Moss, Paul Jensen and Thomas McQueen, three friends who saw Thompson shortly before he killed himself. At that time, they declared, he was drunk at all, and must have been sober when he took his own life. "We were with Thompson less than fifteen minutes before he committed suicide," said Fred Moss yesterday. "When he was with us we were in the barroom, and appeared to be very blue about something. Feeling that he was somewhat out of sorts, we went over to him and asked what the trouble was. He said that a woman in a rooming house had robbed him of \$30. At the time he had not been drinking. We each had one glass of beer. We then advised him to go to the woman and demand his money back. He left us and returned in a few moments to say that she would not give up his cash."

At that time he had a piece of paper in his hand, and a few minutes he sat down and began writing. He asked what he was writing and, folding up the paper, he said, 'Oh I wish I could get back my cash.' We then persuaded him to go back and told him, if necessary, to use force to get his money. He said that if he succeeded in getting the money he would return to us. He did not come back, and the next thing we heard of him was that he had committed suicide. He was not intoxicated."

WILLIAM Thompson, the brother of the suicide, called on D'O'Neill & Co., undertakers, yesterday, and made arrangements for the shipment of the body to the funeral home. At the undertaking yesterday, today, at the funeral, the family knew of no motive which could have prompted the act, and the family knew that the family knew that he was in this city.

### WANTS BOYLE HELD.

San Francisco Chief of Police Wires Salt Lake Officer.

Word was received by Chief of Police S. M. Barlow from Chief of Police J. B. Martin of San Francisco last night to hold J. B. Boyle, alias W. R. Ellis, was arrested at the Buena Vista track Wednesday afternoon charged with forging a check for \$50, drawn on the Walker Brothers' bank, and purporting to be endorsed by J. D. Ashton of the Taxicab Service company. When arrested the name of Ellis was given. In his pockets, however, were found papers indicating that he was J. B. Boyle.

Upon looking up the police records it was found that a man of that name was wanted for embezzlement in San Francisco. The San Francisco police were then notified.

"Hell Isn't So Bad, After All" (As dreamed by Jack Held.)
